

*Did you know?*

## Horses Love Pumpkin!

*Just add  
pumpkin and  
you'll have the  
happiest horse  
in the barn!*

Pumpkin is a perfectly safe and healthy treat for your horse. Plus, a strategically placed pumpkin can be a true boredom buster!

- For a tasty surprise, cut a pumpkin into pieces and add to your horse's regular feed.
- To give him an unusual toy, place a whole pumpkin (stem cut off) in your horse's stall.
- For a fun challenge, suspend a small dessert/pie pumpkin in your horse's stall and he will stay busy for hours trying to catch it.
- If you're feeling extra ambitious, make this tasty horse treat: Roast a pumpkin and combine the softened flesh with oats, wheat bran, a little cinnamon, and molasses until gooey, then bake at 300°F for 20–30 minutes.
