

# AstaReal® Product Information

## What is Astaxanthin?

Astaxanthin is a naturally occurring compound that gives the reddish pink color to marine organisms such as crabs, shrimp and salmon. It is often called the King of Carotenoids because of its powerful antioxidant potency.

## What is AstaReal® Astaxanthin?

AstaReal® is obtained by cultivating naturally occurring microalgae, *Haematococcus pluvialis*, in unique closed-bio systems in Moses Lake, Washington, USA and Gustavsberg, Sweden. These closed-bio systems control crucial parameters (heat-light-water) for growth and accumulation of astaxanthin. The closed systems protect the microalgae from environmental contaminants and allow us to create the purest and most potent natural astaxanthin in the world.

## Why AstaReal®

- ✓ Successful FDA **GRAS** and **NDI** notifications
- ✓ The only astaxanthin with **NPN** from Health Canada
- ✓ State-of-the-art cultivation using **Solvent Free** CO<sub>2</sub> extraction
- ✓ The only astaxanthin brand supported with over **50 clinical studies** and numerous patents

## Application Areas

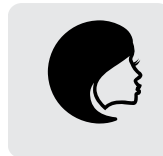

### Eye Health

### Muscle Endurance & Recovery

### Skin Health

### Cardiovascular Health

Contact us today to receive detailed technical studies for each application area.

## AstaReal® Astaxanthin Products

AstaReal® L10

10% Natural  
Astaxanthin extract oil

AstaReal® P2AF

2% Natural Astaxanthin  
extract powder

AstaReal® Clear 100

1% Water-Soluble  
Astaxanthin Liquid

Bulk Softgels

Various potencies and custom  
formulas are available
