

Our Commitment To Quality

Our facility is registered with the FDA. We are cGMP compliant, as well as Food Safety & Modernization Act (FSMA) compliant. We are a preferred supplier for the NASC.

For those that are familiar with the process, you know how incredibly difficult it is to work with FDA's new digital process. We will take care of filing your submission if required and we will do it at no charge to you.

If you are looking for any OTC veterinary product, Cosmetic product, Grooming product or Nutraceutical products, please call us and we will help you get your idea to market.

Our new building is 54,000 ft² of manufacturing and packaging rooms with ample warehouse space. We provide turnkey services for all sectors of the veterinary industry.

Ruben Martinez
President
Custom Veterinary Services, Inc.
Email: rubenmartinez@customvetservices.com

Custom Veterinary Services, Inc. was founded in 2005 by Mr. Ruben Martinez. After having worked 20 plus years for DVM Pharmaceuticals, Inc., as Vice President of Operations & Manufacturing, DVM was relocated to St. Joseph, Missouri to unify with a recent acquisition, Phoenix Scientific. Not wanting to pull roots and move to Missouri, the company was established to service the wholesale sector of the veterinary industry.

Our company specializes in Contract Manufacturing strictly for the Veterinary Industry. We know what has to be done, to do it right the first time.

Custom Veterinary Services, Inc.
