

Non-GMO Statement

Biova, LLC produces natural products that are not derived from genetically modified organisms. Biova sources its raw material, egg membrane, from laying hens which have not been genetically modified.

Biova certifies that the following products are GMO free:

- BiovaFlex
- BiovaPlex
- BiovaDerm
- BiovaBIO

Biova recognizes and acknowledges its responsibility for transparency in the supply chain. Our company places the highest priority on the safety and health of our products and as such, places the highest emphasis on ensuring, that each product is safe and fit for human consumption and is in compliance with the current industry standards.

As a manufacturer for the life science industry, Biova is fully committed to the current Good Manufacturing Practices (cGMP) comprising the internal GMP policy as well as local law and international guidelines adopted by the U.S. Food and Drug Administration (FDA).
