Third Party Current Good Manufacturing Practice (cGMP) Inspections

Dear Customer,

We are providing information and documentation for the official regulatory agencies, USDA and FDA, inspections of Biova operations for compliance to cGMPs. These inspections are actual regulatory body inspections that provide governmental approvals for the sale of Biova product both domestically and internationally. These inspections are official cGMP inspections and are attesting to Biova's compliance with cGMPs.

Many organizations in the dietary supplement industry do not undergo these types of official inspections and as such the industry has become accustomed to paid third party inspection companies for providing 'certification' of cGMP compliance. The official inspections that Biova undergoes are thorough and provide official regulatory documentation of cGMP compliance.

Please contact us if you have any questions.

Best Regards,
