Product Safety and Quality Statement (NASC)

Kerry, “The Taste & Nutrition Company”, is committed to providing safe, high-quality, sustainable products globally to our customers in the animal nutrition, pet care, human nutrition, dietary supplement, and pharmaceutical industries.

Kerry requires that the manufacturing facilities for all of our over 15,000 products comply with all relevant regulations (including, where applicable, the United States Food Safety Modernization Act (FSMA), 21 CFR 507, and 21 CFR 117) as well as our own industry-leading food/feed safety and quality management systems, including policies and programs for:

- Hazard Analysis and Risk-Based Preventive Controls (HARPC) and/or Hazard Analysis and Critical Control Points (HACCP),
- Good Manufacturing Practices (GMP),
- Cleaning & Sanitation,
- Environmental Monitoring (EMP),
- Pest Control,
- [Supplier Qualification, Approval, and Management](#),
- Document and Record Control,
- Personnel Qualification, Training, and Hygiene,
- Product Control,
- Laboratory Controls, product testing, and positive release,
- Food Defense (TACCP) and Food Fraud (VACCP),
- Customer Complaints,
- and Serious Incident Management.

Compliance is monitored on an ongoing basis by Kerry’s internal audit teams and by means of independent, accredited third-party auditors (e.g. Global Food Safety Initiative (GFSI), GMP, etc.).

Supporting documentation regarding our compliance and GMP programs is available to customers, subject to Non-Disclosure/Confidentiality Agreement in place as appropriate.

We are excited to partner with the National Animal Supplements Council (NASC) as an added assurance of the confidence our customers can have in Kerry products and services. Please contact your Account Manager or Richard Goodman, Vice President Pet Nutrition (richard.goodman@kerry.com, (608) 201-1067) if you have questions.
