

BIOENERGY LIFE SCIENCE, INC.

Your Total Solution Provider

**Re-imagining
Ingredients for
Healthier Living™**

Built on Innovation

Our company's foundation is based on research by pediatric, cardiothoracic surgeon, John E. Foker, MD, Ph.D. Foker realized that an invasive thoracic procedure for a congenital defect often led to additional issues in his young patients. In an effort to improve outcomes for these children, he conducted substantial research and discovered that D-Ribose given orally and intravenously helped alleviate additional damage from the procedure. He was granted a patent in 1988 for this life-changing discovery.

Subsequent research at the University of Minnesota led to additional patents and the formation of Bioenergy, Inc. in 1990. With this, we quickly became known as The Ribose Company.

Dr. Foker uncovered the temporal relationship between the amount of energy in the heart and its diastolic functions such as the ability to relax, refill and stay flexible. Bioenergy Ribose drives the synthesis and replenishment of critical energy compounds. This supports cardiovascular health and overall vitality.

We continue to build on this innovation to develop other powerful, clinically proven ingredients that help people live healthier, longer lives.

BLS is your Total Solution Provider

Bioenergy Life Science (BLS) is re-imagining the possibilities for dietary supplements, functional foods, beverages, cosmetics and personal care products. Let's partner to develop or refine your formulations and line extensions with our game-changing branded ingredients and value-added services that make BLS your total solution provider.

Over 30 years ago, we had a vision to develop all-natural, science-based ingredients that help people of all ages feel, perform and look better from the inside out. That vision remains to this day. We take tremendous pride in using cutting-edge science and our proprietary core technology to bring you the very best in versatile, effective ingredients.

Our Value-Added Services

Unparalleled formulation support for new products and line extensions

Innovative product development/prototype concepts

Stringent quality control standards

Regulatory support and guidance

Marketing and promotional support

Label verification, package design concept support

Innovative ingredients for healthier living

Healthy aging

Cellular energy

Cognitive function

Active lifestyle

Sports performance

Heart health

BLS-branded ingredients do more and do it better.

THE go-to ingredient for active lifestyle, sport nutrition & overall health products.

This healthy, 5-carbon functional sugar increases cellular energy by enhancing the body's ability to make ATP, resulting in noticeable sustained energy. It can also enhance the performance of other energy ingredients, making it the backbone ingredient for any custom blends. Bioenergy Ribose® is the only patented and FDA GRAS-certified multi-functional D-Ribose on the market.

This natural, GRAS, non-GMO ingredient is versatile! It can be used in functional foods and beverages, dietary supplements or as a stand-alone product. Bioenergy Ribose also helps to smooth skin in personal care applications when used topically.

Increase athletic performance and endurance

Increase and restore energy

Accelerate recovery

Reduce muscle stiffness and soreness

Support cardiovascular health

Help maintain healthy blood flow and circulation

Keto-friendly

Non-GMO

Patented

Highly soluble

Slightly sweet

EFSA Novel Food authorized

Uses next-generation technology to support cellular health and promote healthy aging.

RiaGev is a customized nutritional solution of Bioenergy Ribose and nicotinamide. It uses next-generation technology to increase NAD, ATP and glutathione simultaneously, resulting in better efficiency and delivery in the body. This distinct advantage has never before been accomplished in a single-ingredient solution.

RiaGev also promotes redox balance/homeostasis. It supports cellular health by putting the body in a stronger position to manage free radical imbalances caused by aging, stress and everyday life.

RiaGev can be used as a stand-alone product or in functional foods and beverages, dietary supplements, cosmetic applications and much more.

Slows the aging process from the inside out

Supports concentration and motivation while reducing fatigue

Improves cellular repair and stress resistance

Supports improved cognitive function and quality of life

Improves quality of life

Natural

Non-GMO

Clinically proven

Patented

Clinically proven to help women age gracefully

RiaGev-FEM is a patented, drug-free ingredient formulation of Bioenergy Ribose and Nicotinamide that supports women at every stage of the menopausal spectrum. It is clinically proven* to lower cortisol levels naturally in a shorter amount of time than other ingredients, and without side effects.

It supports women's health from the inside out with an improvement in alleviating symptoms.

RiaGev-FEM can be combined with other beneficial botanicals and bioactives to produce women's health products with multiple benefits or as a stand-alone ingredient.

Benefits of noticeably lower cortisol levels:

Fewer hot flashes and night sweats

Easier weight management

Improved mood

Less sleepiness and fatigue

Enhanced libido

Relief from Polycystic Ovary Syndrome symptoms

Natural

Highly bioavailable

Patented

No side effects
